To Whom it May Concern,

Re: Distribution of Application Manuals for 2014 School Year of Special Course,
Budo Specialization Program, International Budo University

We are very grateful for your thoughtfulness given all the time for our University to your concerns.

Thanks to your patronage, the 19 years have passed since the establishment of our Special Course in April, 1994 and 285 students in all (167 Judo students and 118 Kendo students from 48 nations and regions) have completed the course by the end of 2012 school year. It is primarily due to your kind support. Although I wish I could thank you and appreciate your continuing support in person, I hope you will excuse the letter like this.

Now, our University recruits students for Special Course starting in April, 2014. We are pleased to send you the enclosed materials in a hope for your kind introduction of our Special Course along with them to your young concerns who may be interested in the well disciplined trainings of either Judo or Kendo and the academic studies of Japanese language, history and culture during a year's stay in Japan and who aim to become leaders of Budo in the future.

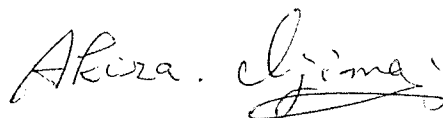

Should you find any indistinct parts in our materials, have any questions or information of prospective students in April, 2014, please keep us informed by the following contact information.
